At Indy Champions, we are dedicated to educating and supporting young people in making informed, safe decisions in their relationships. Through our targeted programs, we aim to build awareness about the warning signs of unhealthy behaviors and promote respect, consent, and healthy boundaries.

We have reached more than 3,000 youth across Indianapolis, making a lasting impact in schools, churches, and community organizations.

TOGETHER WE ARE CHAMPIONS

We work directly with schools, churches, and any program that serves youth and young adults to deliver these life-changing lessons. All participants in our education programs receive a certificate upon completion.
